02 · PERSONAL APPROACH

We've studied your needs

Dear, Layla Hassan. We've analyzed the requirements of Desert Pulse Events and prepared a solution tailored to your needs.

The UAE scenario needs a premium visual shell and a faster lead time than permanent construction.

This setup is built for short-cycle hospitality and event briefs in Dubai.

CLIENT TASK

Venue availability is volatile and premium outdoor events need weather-safe branding.

RECOMMENDED SOLUTION

The dome tent balances visibility, speed and modularity for GCC markets.

ADAPTED TO YOUR CLIMATE

-5°C / +55°C

Materials adapted, structure reinforced, seasonal loads accounted for

PROJECT TIMELINE

4 wks

Total from order to handover

PERSONAL NOTE FROM OLEG SMIRNOV

Layla, the key point here is speed: a rental package can be deployed without overbuilding the proposal.

Ready to discuss the details?

Path from aligned scope to project launch

01

Dates & venue lock

We confirm event dates, venue access and the final scope of works.

02

Structure reservation

We reserve equipment, logistics, installation schedule and additional options.

03

Build & event operation

We install the structure, activate the site and support the launch window.

04

Dismantling & closure

We dismantle, return equipment and close the project documentation.
